## **PROFESSIONAL PROFILE**

A disciplined and ambitious IT enthusiast dedicated to solving real-world problems with the appropriate skills. Eager to contribute to the Software Development sector through creativity, hard work, and a commitment to quality. I strive to excel in every task in my working life with tremendous enthusiasm, providing me with the motivation and drive to achieve not only my own goals but also those of my team.

## **EXPERIENCE**

### **Java Full-stack Developer on academic project** **November 2021 – December 2022**

- Implementing web design and development principles to build stable software.
- Bringing mock-ups to life using HTML, CSS, JavaScript.
- Building websites and apps that are responsive and usable.
- Monitoring website performance and rectifying front-end-related issues.
- Identifying innovative ideas and proof of concepts according to project requirements.
- Testing to identify bugs and technical issues before and after deploying.
- Documenting bug reports, tickets, and any code changes.
- Conducted development tests

## **PROJECTS**

- Book stores and Library management app. An application that allows people to buy and borrow books online.
- Cars registration system, to be used by cars owners when importing their cars in country.
- Designed and implemented a secure network infrastructure , resulting in improved network performance and reduced downtime. Used Cisco routers and switches, VLANs, and firewall technologies.

## **EDUCATION**

### **ADVENTIST UNIVERSITY OF CENTRAL AFRICA (AUCA)**

**Kigali, Rwanda**

### **Bachelor of Science in information technology in software engineering** **2023**

- **Relevant coursework:** Algorithms & Data Structures, Micro-computer application, Object-Oriented Design, Software Engineering life-cycle, Java Programming, Wireless Mobile Communications, Database Management Systems & PL-SQL, Information Security, Assembly Language Programming, Computer Organization and Architecture, Introduction to networking, Introduction to Linux.
- **Skills:** Professional programming, Web and Mobile application development, agile programming processes and software Security.

## **SKILLS**

Skill	Level
Java	Advanced
Web Technology	Advanced
MS excel	Advanced
MySQL	Advanced
Networking	Advanced
Linux commands	Intermediate
Window server 2008	Advanced
Software Design	Advanced
English	Professional
Soft Skills	Communication Skills, Problem solving, Critical thinking and working under pressure
